To CPS for file

24 APR 1946

Dr. A. Ross Eckler,
Chief Social Science Analyst,
Bureau of the Census,
Washington 25, D. C.

Dear Doctor Eckler,

In accordance with the very generous offer of yourself and Doctor Jaffe to present your "wares" before a large audience of representatives of all possibly interested government agencies, we had arranged, tentatively, for a conference to be held on 29 April, 1946.

However, in considering the matter subsequently, it has become clear to us that the initiative with regard to conferences not bearing directly upon the national intelligence mission, should not be taken by the Central Intelligence Group.

Consequently, we leave it to you to arrange the projected large conference, when and where it may appear to be convenient to you.

As of possible aid to you in this connection we enclose the list of agencies to which we had intended to address invitations to the conference, for such use as you may care to make of it.

With thanks and best wishes to yourself and Dr. Jaffe,

Sincerely yours,

25X1A9a

Colonel, Air Corps

Enclosures: List of agencies.
Copy of letter from D.C.I.
